Name: _____ Date: _____

"Power Surge"

Energy Technology Documentary

Note Taking Exercise:

Watch the "Power Surge" documentary and take notes on the information that you feel is important, based on the question: **What can be, or is being, done to reduce carbon emissions, while keeping up with our growing energy needs?**

Notes: **To help you…take notes only on information that relates to the question above.**

Once you have completed watching the video, and taking notes, answer the following question, and give evidence based on the information from the video and your opinion.

Question: Based on the information in the video, what do you think is the best way to produce energy and reduce our carbon emissions? (*Give at least three reasons to support your opinion.)*
