

# "ME" project

Your teacher will take a photo of you in class, which will be printed off and added to your art project.

Once your photo is printed off, you will need to cut it out and glue it onto construction paper.

You then need to write your name using big bold block letters. Once your name is written in a way that can be easily read, you will need to decorate it with your favourite colours.

Once your name is coloured and decorated, you will need to cut out your name and paste it to the top of your paper.

The final part of the Art portion of your project, you will need to decorate the rest of your page with images of your favourite things. You must have at least 6 images on your paper. Each of the drawings need to be fully coloured, cut out and glued on your page.

Once you have completed the Art portion of your ME project, you will need to be able to explain why the images are important to you.

Be sure to follow all the instructions, do your best and most of all...HAVE FUN!!!
